Oficina de Prototipagem

- Elaborar um protótipo:
 - Não operacional, descartável e de características selecionadas;
- “O usuário deverá informar sua matrícula, senha e escolher o campus ao qual deseja ter acesso ao acervo da biblioteca, podendo ser o de Colatina ou Itapina”;
- “Os livros disponíveis serão listados em itens no formato vertical, com imagem da capa, título e descrição breve”;
- “Ao clicar em um livro, será aberta uma outra tela onde a capa será apresentada em evidência, logo abaixo o título e na sequência uma descrição mais detalhada sobre o livro. Também serão apresentadas as opções de solicitar empréstimo ou retornar para a lista de itens”;

The screenshot shows the Uizard login page in a web browser. The browser's address bar displays 'app.uizard.io/login'. The page features the Uizard logo and a 'Log in' section with input fields for 'Work Email' and 'Password', a 'Log in' button, and links for 'Forgot password?' and social login options (Google, Microsoft, SSO). A red arrow points to the browser's address bar. A Capterra 4.6 review overlay is present on the right side of the page, featuring a quote from Lilit Hovhannisyan, a Full-Stack Developer at Care Technologies, praising Uizard's ease of use and design capabilities. The overlay also includes a Capterra logo and a star rating.

Capterra 4.6

“What I loved the most about Uizard is that you can design so quickly. You don’t need to take time learning any feature. You also don’t have any trouble finding what you’d like to achieve. And that’s important because when people are not designers, there’s no need for complexity.”
